

Bonsai "Training":

Most often, years "In-Training" differ from the total age of the tree.

The term "In-Training" begins from the point in time when a tree is obtained from either a seedling, sapling, or collected from the wild (or other landscaping), and the practice of 'miniaturizing' and styling begins, for the art of "Bonsai".

Example "Training" period of a Pine tree, from Seedling

In this case, the tree is only 1-3 yrs old before "Training" begins.

BONSAI
('Tray' - 'Tree')
Pronounced: "Bone-sigh"
